

Ovation of the Seas Darwin Visit

8:00 AM to 5:00 PM – 28 February 2017

Darwin Port wishes to advise that there will be a 100 metre security zone around Ovation of the Seas whilst berthed at Fort Hill Wharf.

The world's 4th largest cruise ship will need to turn adjacent to the berth on departure. Whilst underway, a safety zone 500 metres ahead and astern, and 200 metres either side will be in place to ensure the safety of port users.

Boat operators are advised to remain outside the security and safety zones at all times and to exercise caution on the water whilst enjoying the spectacle.

The best vantage points are The Esplanade, for arrival from 7.15 am and departure from 5 pm, and viewing during the day from Stokes Hill Wharf.
